S6 LED SOLAR STREET LIGHT 20W-60W

Dimming Setting
Time Control

IP66

7 Raining days
back-up

Energy saving,
low carbon footprint

LED ambient light

Besides the main lighting, the special ambient light decorates surroundings.

Frontal Maintenance

Easy and simple to maintain at frontal side.

High-end raw material

Integrated high-pressure aluminum alloy casting housing, with thickened design, which has better heat dissipation and anti-corrosion ability, and longer life span. Strengthened structure can withstand 4 times of its gravity simply.

Professional secondary optical design

The structure around the light emitting surface is optically treated to effectively control the glare and upward light leakage, which minimized light pollution and protected environment.

Intelligent control

Microwave sensor and time control optional.

Multiple installation ways

Horizontal/vertical/wall mounted installing available.
